LaTeisha opened the meeting at 2:00. Brittney reminded members to post announcements and other information pertinent to the group to the Facebook page. The page has been a success for committee recruitment. There are approximately 50 people waiting to be added to the Facebook group that are not currently members of the Committee. They have been contacted and asked to complete membership information.

Morgan gave a report on the logo creation and review. Mark Moore developed several logos that were presented to the Branding and Marketing sub-committee for review. A logo was selected by the committee. Morgan presented the logo to the EHE committee and received positive feedback. The logo will now be sent to the Assurance of Compliance Committee for final approval.

Ritalinda was scheduled to provide a review of the needs assessment but could not be present at the meeting today. LaTeisha reviewed goals and objectives for the Jurisdictional Plan that are mandated by CDC. ADPH staff indicated there has been an update to the Plan objectives and that discussion will take place during the October meeting.
